

ABT[®]

Our tribute to the last air-cooled
Porsche 911 of the 993 series.

BY CHRISTIAN ABT CLASSIC

CHRISTIAN ABT
CLASSIC

Modell 9RS

The myth 911 and especially the fastest production car in the world at the time, the **Porsche 911 RSR 2.8 from 1973** paved the way for this re-inspired project.

This masterpiece is limited up to

20 cars

Half of them are already sold and every car will be an **individual and unique 9RS.**

9RS®

PASSION. INNOVATION. DESIGN.

The **9RS** is a beautiful symbiosis of **technology**, **motorsport** and **classic** and inspires car fans all over the world. It is a timeless work of art that celebrates the history of Christian Abt Classic and the passion for innovation and design.

Many days and nights were invested in equipping the **Porsche 993** with **911 highlights** and giving it a stylish look, reminiscent of the **1973 era**. After all the hard work and challenges, Sebastian Riedl can be proud of the absolutely brilliant result, which shows the attention to detail and craftsmanship of his employees and partners.

A 993 WITH SPECIAL HIGHLIGHTS

CHRISTIAN ABT

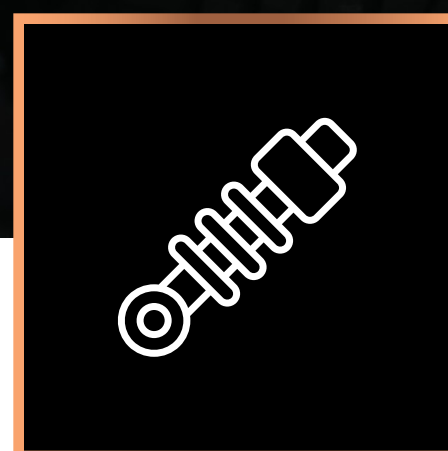

CLASSIC

The company's founder **Christian Abt** and his motorsport successes, hence the name »**Project 1967**« – the year of Christian Abt's birth.

Time and again, he thinks back to the **Porsche double victory in 2006** at the Nürburgring 24h race, where he celebrated second place with Alzen Racing in a Porsche 911 GT3.

CHASSIS

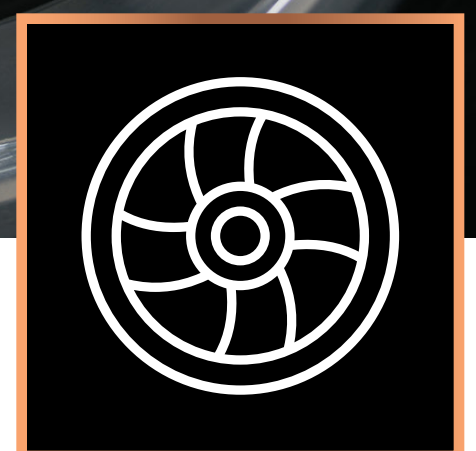

Pure driving pleasure!

A coilover suspension tuned to your needs takes your car to the next level. Experience the roads like never before and feel the power of your car under your feet. Manufactured by **Bilstein** and **NTP**, the suspension with **Eibach springs** is adjustable in rebound and compression and offers optimal tuning.

WHEELS

The road calls and you're ready for the ultimate riding experience.

Our **unique rims in retro design** have a center lock and thus offer larger openings for brake ventilation. The forged wheels have a dimension of 9×18 front and 11×18 rear and come with **Hankook Evo S1 tires**.

EXHAUST SYSTEM

This exhaust system is a technical masterpiece.

Inspired by the legendary **911 ST exhaust** which was fitted on the **Le Mans race track** and now equipped with **six bars** representing the **six cylinders**, it is a guarantee of optimum performance and an incomparable sound.

LIGHTS

The eyes of a Porsche are like windows to the soul - they are the mirror of the character of this icon.

We have preserved the shining eyes of the Porsche, but given them a new, fascinating vibrancy through **state-of-the-art LED technology**. Experience how the road shines in a whole new light. We will also be adding new types of **taillights** to the portfolio.

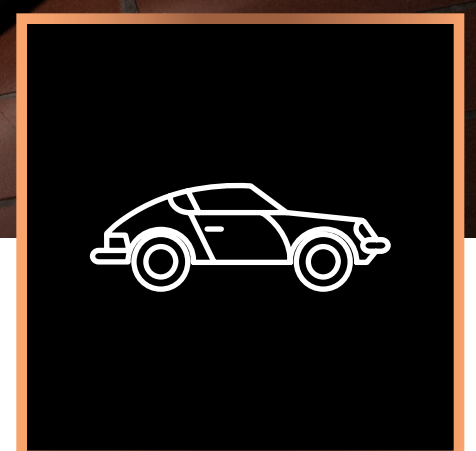

DRS[®]

Our engine benefits from an upgrade from **3.6 Liters to 3.8 Liters**. With various special components, our target is to achieve **340-350 HP**. In combination with the total weight of the automobile, we guarantee maximum enjoyment, especially on curvy roads. And when you start the engine, oh what a sound...

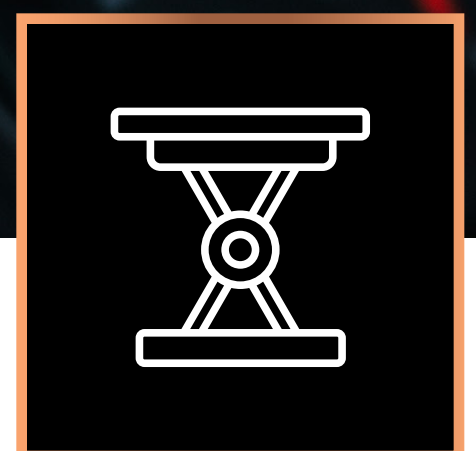

BODY

This Porsche is an absolute eye-catcher and makes your heart quiver.

We have widened the rear wheel arches with **original Porsche side panels** and so the rear of the Porsche 993 looks even more muscular and wider than ever before! We have **perfectly adapted the duck tail** to the new rear view.

WEIGHT

A truly liberating driving experience awaits you!

By using **carbon fiber** in the front structure and the tailgate, we let our vehicle shine in new lightness with just **under 250 kg** less weight. The target weight is less than 1,100 kg, which is just under 100 kg heavier than the Porsche Carrera 2.8 RSR from 1973.

SPORT SEATS

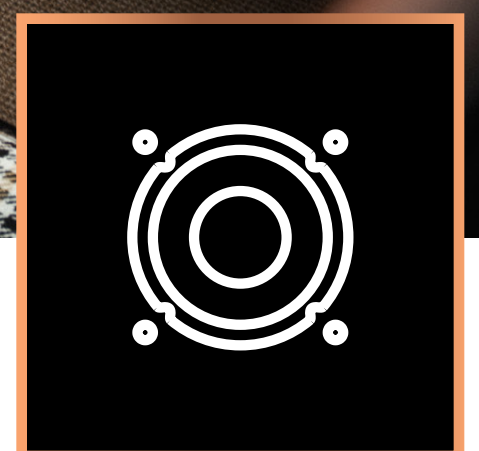

Feel the power and dynamics as you drift into the corners.

The high-quality leather upholstery adds an elegant touch to the vehicle's interior and makes you feel like a real racing driver. Get ready for the ultimate driving experience! Thanks to optimal tuning with **RECARO**, the **Pole Position** or **Podium** seat has been perfectly adapted to your needs.

RECARO

RADIO

**This is no ordinary car ride –
this is a journey through time.**

The Porsche, equipped with a classic radio, makes you feel like you're in the **1970s**.

But that's just the look. The technology behind it is more modern than ever. With **Apple Carplay**, you feel connected to the world of today as you glide through the streets of yesterday.

ERS[®]

A masterpiece beyond perfection
